OFFICE OF THE GOVERNOR GENERAL'S SECRETARY, CANADA

OTTAWA, January 25th, 1930.

SIR,—I have the honour to inform you that His Excellency the Governor General will proceed to the Senate Chamber to open the Session of the Dominion Parliament on Thursday, the 20th February, at three p.m.

I have the honour to be,

Sir,

Your obedient servant,

E. C. MIEVILLE,

Secretary to the Governor General.

The Honourable
The Speaker of the Senate,
Ottawa.

Ordered, That the same do lie on the Table.

The Senate was adjourned during pleasure.

After a while, His Excellency the Governor General having come, and being seated on the Throne,—

The Honourable the Speaker commanded the Gentleman Usher of the Black Rod to proceed to the House of Commons and acquaint that House that,—

It is His Excellency the Governor General's pleasure that they attend him immediately in the Senate Chamber.

Who being come, with their Speaker,

His Excellency the Governor General was pleased to open the Session by a Gracious Speech to both Houses, as follows:—

Honourable Members of the Senate:

Members of the House of Commons:

It affords me much pleasure to greet you at the commencement of another session of parliament, and to be able to congratulate you upon the continued prosperity of the country. The year 1929 was the most productive year in the history of Canada. In industries, other than agriculture, employment reached the highest point on record; new construction was the largest known. Mining production was of unequalled value. Manufacturing production surpassed all previous records. There was vast increase in the development of hydro-electric power. The products of our fields and our herds reached higher standards of excellence and quality than at any previous time. The Dominion is already recovering from the seasonal slackness evident at the end of the year, and it is not to be forgotten that the bulk of the 1929 wheat crop still remains in Canadian hands for final disposition.

Our trade with foreign countries has shown marked increase. During the year additional Trade Commissioners' offices have been opened in several countries, and additional steamship services inaugurated to Australia and South

America. Tenders have been called for proposed extensions of steamship services to India and British East Africa.

Our two railway systems have carried out extensive construction and development plans, and are contemplating further construction and developments. The final section of the Hudson Bay Railway has been completed. The construction of the Welland Ship Canal is now nearing completion. On the opening of the new canal the Upper Lake grain carriers will be able to reach Lake Ontario and Upper St. Lawrence ports. The work of providing suitable terminals is proceeding.

Legislation will be introduced respecting the several railway properties formerly privately owned and now embraced in the Canadian National Railway system.

For some time past my Ministers have been giving special attention to those problems which for many years have been a source of controversy between the provinces of Canada and the Dominion. Among matters of concern have been certain economic and financial readjustments deemed by the provinces essential to their being placed in a position of equality one with the other. To a greater or lesser extent, problems have arisen with respect to all the provinces of Canada. Those of the Maritime provinces were investigated by the Royal Commission on Maritime Claims and have been in large part solved by the effect given to the recommendations of that body. Consideration is at present being given to the final revision of the financial arrangements contemplated by the Commission's report.

The provinces of Manitoba, Saskatchewan and Alberta have negotiated for many years with the Government of Canada for the return of their natural resources. The province of British Columbia has sought the restoration to the province of lands comprising what is known as the railway belt and Peace River block. With the provinces of Manitoba and Alberta and with the province of British Columbia agreements have been reached, which will be submitted to you for approval. An offer similar in character and terms to that accepted by Alberta has been made to Saskatchewan with respect to the transfer to that province of its natural resources.

The provinces of Ontario and Quebec have been concerned over the question of water powers in their relation to navigation. It having become apparent, through a reference to the Supreme Court, that this question cannot readily be settled by judicial determination, a solution has been sought by conference which it is hoped will lead to a satisfactory settlement of this highly controversial problem.

My Ministers have also been making careful inquiry into the workings of the provisions and administration of the Pensions Act with a view to ascertaining what, in the light of past and present experiences, may be necessary to ensure full effect being given to the purpose of Parliament in that enactment. As a result your attention will be invited to legislation to make more adequate provision for the needs of the veterans of the Great War and their dependents.

The report of the Royal Commission appointed to inquire into the existing situation with respect to radio broadcasting in Canada will be presented for your consideration.

The report of the Royal Commission appointed to inquire into the classification and remuneration of technical and professional officials of the Civil Service of Canada will also be presented for your consideration.

During the year a complete reorganization was effected in the personnel of the Board of Grain Commissioners. Men of outstanding business, agricultural and scientific experience have been appointed to administer the Canada Grain Act. A Bill will be presented for the consolidation of the Canada Grain Act, in accordance with the recommendation of the Standing Committee of the House of Commons on Agriculture at the last session.

At the September meeting of the Assembly of the League of Nations, the Optional Clause of the Statute of the Permanent Court, providing for the submission of justiciable disputes to arbitration, was signed on behalf of Canada and all the other nations of the British Commonwealth. It will be submitted for your approval.

In accordance with the recommendations of the Imperial Conference of 1926, a conference was held in London during the past autumn to consider and report on certain phases of the operation of Dominion legislation and merchant shipping. The report of this conference will be submitted.

In the summer of last year, an invitation was extended by His Majesty's Government in Canada to all His Majesty's other Governments to participate in an Imperial Economic Conference in Canada at the earliest possible date. It was found that the convenience of the majority of the Governments could best be met by an arrangement to hold the Imperial Economic Conference along with the Imperial Conference in London in the early autumn of the present year. This has accordingly been arranged.

Canada, in common with the other members of the British Commonwealth of Nations, is participating in the Conference on the Limitation of Naval Armament, which was opened in London by His Majesty on January 21st. It is confidently hoped that the discussions so auspiciously begun will result in a marked lessening of international rivalries and the growth of security and good-will.

The eligibility of women for appointment to the Senate of Canada has been declared by the Judicial Committee of the Privy Council, and I have been pleased, on the advice of my Ministers, to avail myself of the earliest opportunity to summon a woman to the Senate. For the first time in Canadian history, women have been accorded an equal right with men to representation in both Houses of Parliament.

Among other measures to which your attention will be invited are amendments to the Elections Act, the Bankruptcy Act, the Companies Act, and the Criminal Code.

Members of the House of Commons:

The Public Accounts of the last fiscal year and the Estimates for the coming year will be submitted for your consideration.

Honourable Members of the Senate:

Members of the House of Commons:

In again inviting your careful consideration to the important matters which will engage your attention, I pray that Divine Providence may continue to guide and bless your deliberations.

His Excellency the Governor General was pleased to retire.

The Commons withdrew.

After some time the Senate was resumed.

PRAYERS.

The Honourable Mr. Dandurand presented to the Senate a Bill intituled: "An Act relating to Railways."

The said Bill was read the first time.

The Honourable the Speaker informed the Senate that a copy of the Speech of His Excellency the Governor General had been left in his hands.

The same was read by The Honourable the Speaker.

Ordered, That the Speech of His Excellency the Governor General be taken into consideration on Tuesday, next.

The Honourable the Speaker informed the Senate that the Clerk had received certificates from the Honourable the Secretary of State of Canada showing that—

The Honourable Robert Forke, and

Cairine Mackay Wilson,

respectively, have been summoned to the Senate.

The same were read by the Clerk, as follows:—

The Honourable the Speaker presented to the Senate the Report of the Joint Librarians of Parliament, for the year 1929.

The same was then read by the Clerk, as follows:—

LIBRARY OF PARLIAMENT

Report of the Librarians for 1929

To the Honourable the Speaker of the Senate.

The Joint Librarians of Parliament have the honour to submit their Report for the year 1929.

The Supplementary Catalogue of books donated to, and purchased by the Library is in the hands of the printers and will shortly be available.

The Librarians desire to note the death, during the past year, of Colonel A. H. Todd, who retired from the Library in January, 1926. Son of Dr. Alpheus Todd, the well-known constitutional authority and former Librarian, Colonel Todd rendered faithful and important services to the Library of Parliament for a period of more than 56 years.

The Carnegie Endowment for International Peace, as in former years, has presented many valuable works to the Library. Amongst welcome gifts received from other sources are the documents of the League of Nations, and the publications of the International Court of Justice. A complete set, also, of the publications of the International Labour Bureau has been received.

The more strictly Parliamentary section of the Library, including books on economics, has been reinforced by the acquisition of new editions of standard works and the purchase of important new books. The recently-published fourteenth edition of the Encyclopaedia Britannica has been purchased. Three volumes of the new Dictionary of American Biography have been received. This work when finished will comprise twenty volumes, and will constitute the most important attempt to cover this large field.

Correspondence with the Provincial governments and with the various Harbour Commissions has resulted in the Library being supplied with practically all their latest reports and documents, and the Librarians desire to acknowledge the courteous manner in which their requests have been met.

The Parliamentary Librarian visited a number of the important libraries in Great Britain during the past summer. As in the case of all libraries at the present time, not excluding the Library of Parliament, the vast modern output of printed matter makes the question of shelf-room a difficult problem to deal with. In some cases, such as that of the British Museum, it has been found advisable to remove to another building, some distance away, the whole of the immense mass of bound newspapers.

After discussion with the London Agents of the Library of Parliament, and by the courtesy of the Controller of H.M. Stationery Office and of the Keeper of the Records, arrangements have been made by which the Library of Parliament will be continually supplied with copies of all those Record Office publications that are of special value to the Library, such as the Calendars of State Papers which include the Domestic, Foreign and Colonial Series.

The Parliamentary Librarian desires here to express his appreciation of the courtesies extended to him by Mr. R. Farquharson Sharp, keeper of the Printed Books at the British Museum, by Dr. Hagberg Wright of the London Library, by the Librarian of the National Library of Scotland and by Mr. Harlow of the Rhodes Foundation Library at Oxford.

The General Librarian begs to observe that the large number of volumes purchased, in the usual course, during the year, has increased to a serious extent the congestion of his division.

The Dominion Archives, invited to take part in a retrospective Exhibition concerning the French colonies and North America, borrowed from the Library a small collection of coins and medals of historical interest. M. G. Lanctot, who represented his department at Paris on this occasion, on returning the borrowed specimens, presented the Library with a copy of the special illustrated General Catalogue of this Exhibition. This publication constitutes a notable contribution to the history of North America and Canada before 1760.

The Gerald E. Hart catalogue of a collection of coins and medals, bought from this gentleman in 1882, and the printing of which has been authorized by the Joint Committee of the Library, has been copied, and will be handed to the printers at an early date.

Respectfully submitted,

MARTIN BURRELL,

J. DE L. TACHÉ

Joint Librarians.

To these Bills the Royal Assent was pronounced by the Clerk of the Senate in the following words:—

“In His Majesty’s name His Excellency the Governor General thanks His Loyal Subjects, accepts their benevolence, and assents to these Bills.”

After which His Excellency the Governor General was pleased to close the Fourth Session of the Sixteenth Parliament of the Dominion of Canada, with the following Speech:—

Honourable Members of the Senate:

Members of the House of Commons:

In bringing the present session to a close, I desire to congratulate you upon the expedition with which Parliament has conducted its proceedings, and upon the extent and importance of the legislative enactments of the session. Matters which have been the subject of long-standing controversy have been successfully adjusted. In several other directions legislation of far-reaching significance has been enacted.

It is a source of particular satisfaction that the public accounts of the fiscal year recently ended again disclose a large surplus and that it has again been possible to effect further material reductions in taxation, as well as a further reduction in the national debt.

Especially gratifying is the fact that, in continuance of the policy of endeavouring to remove all substantial difficulties in the relations between the Dominion and the Provinces, a settlement of the long-standing controversies respecting the Natural Resources of the Provinces of Manitoba, Saskatchewan, and Alberta has been effected. The several agreements have received your approval, as well as the approval of the Provincial Legislatures. Approval has also been given to the agreement reached with the Province of British Columbia concerning the restoration to the province of the lands comprising what is known as the railway belt and Peace River block.

The recommendations of the Royal Commission on Maritime Claims have been further implemented by the legislation which has been enacted with respect to the coal and iron and steel industries.

Extensive and comprehensive revisions have been made in the Customs Tariff with a view to bringing certain schedules more into line with modern business requirements, and existing economic conditions. Material and broad extensions have been made in the British Preferential Tariff schedules, as well as other adjustments which it is believed will serve to promote a larger measure of reciprocal trade between the component parts of the British Empire and with other countries.

The interest which has been evinced during the session in all matters affecting ex-service men demonstrates once more that Canada stands in the forefront in continued appreciation of her soldier-citizens and their dependents. The legislation providing allowances for veterans who may be unemployable as a result of non-pensionable disabilities, the amended procedure and methods of administration under the Pensions Act, the extension of time to applicants under the Returned Soldiers' Insurance Act, and the more liberal treatment accorded soldier settlers, will bring a much sought for relief to numerous individuals and homes.

The Fair Wages and Eight-Hour Day Act gives statutory effect to the fair wages policy which, for some years past, has been observed on construction work under public contract. It provides also for the observance on such work of an eight-hour day. The benefits of this legislation, both as to wages and hours, have been extended, under government policy, to workmen employed on construction work by the government itself. The principle of the eight-hour working day has also been made applicable by the Government to employees in the public service.

To aid in the solution of the problem of seasonal unemployment, provision has been made for holding at an early date a conference of Dominion and Provincial governments, of representatives of municipalities, of transportation companies, and of industrial and labour associations, to consider methods of co-operation in furthering continuous employment throughout Canada during the winter months.

A Federal-Provincial Conference for the purpose of furthering co-operation between the Dominion Government and the governments of the several Provinces of Canada on matters pertaining to immigration has also been arranged.

The consolidation of the Canada Grain Act in accordance with the recommendations of the Standing Committee of the House of Commons on Agriculture, the provision made for increased storage facilities for grain, as well as the inquiry into the promotion of the live stock industry of Canada for which provision has also been made, should prove of substantial benefit to the agricultural industry.

To ensure the development of the fisheries resources of the Dominion and of the industries based thereon, provision has been made for the appointment of a Minister of the Crown to preside over a separate Department of Fisheries.

Conventions with the United States for the protection and extension of the sockeye salmon fisheries and of the preservation of the halibut fisheries of the Pacific Coast have received approval.

Forward steps in the field of international relations have been taken by the signature of the Treaty for Reduction of Naval Armament, by the extension of arbitration through the acceptance of the Optional Clause, and by the revision of the Statute of the Permanent Court of International Justice, all of which measures have received your approval.

Amendments to the Dominion Elections Act have been made which should further ensure fairness and the avoidance of partizanship in the administration of our electoral system.

Among other enactments of the session have been important amendments to The Companies Act, the Export Act, and the Criminal Code.

Members of the House of Commons:

I thank you for the supplies granted for the carrying on of the public services of the Dominion.

Honourable Members of the Senate:

Members of the House of Commons:

In the opinion of my Ministers, it is desirable that the judgment of the people upon the questions which now engage public attention should be obtained during the course of the present year. In order to permit of Canada being represented at the Imperial Conference and the Imperial Economic Conference, which open their proceedings in London, on September 30th, and to afford to Ministers of the Crown as ample an opportunity as may be possible to prepare for the important work of these Conferences, it has been deemed advisable that the present Parliament should be dissolved without delay, and the day of the polling fixed for the earliest date possible after dissolution. I have, accordingly, to announce my intention of causing Parliament to be dissolved immediately following prorogation.

In taking leave of you at this time and under these circumstances, I desire to express the unqualified pleasure which I have derived from my association with you throughout the four sessions of this the Sixteenth Parliament of Canada. I pray that upon your labours the blessing of Divine Providence may be abundantly bestowed.

The Honourable the Speaker of the Senate then said:—

Honourable Members of the Senate:

Members of the House of Commons:

It is His Excellency the Governor General's will and pleasure that this Parliament be prorogued until Wednesday, the 9th day of July next, to be here helden, and this Parliament is accordingly prorogued until Wednesday, the 9th day of July, next.
